### PROJECT UNDERTAKEN

- **Topic- Online Examination System**
  - Online Examination System is a program based on **Servlets** .This provides a platform to students where they can test their knowledge by giving the online test for the topic of their interest.

**Guide:** Mr. Najmul Hasan Arshi (Head Trainer, Cetpa Info Tech Private Ltd., Noida).

- **Topic- Website- Innoviz.niecdelhi.ac.in**
  - Innoviz.niecdelhi.ac.in is the website of techno-cultural fest of Northern India Engineering College. This website was made in **HTML** using **CSS** and **JavaScript** and **JQuery**.

- In this project I was a member of team of two where I was responsible for the development part of the website, I also contributed to the design of the website wherever needed.

➤ **Topic- 3D Platformer Game**

- Made a 3D platformer game which is built on UNITY Gaming Engine.
- I worked as a part of the team of four members in making this game, where my role was to develop game logic and writing script for the movement of the characters.
- Programming language used in making the game is C# scripting language used by UNITY.

➤ **Topic- Test Portal for College**

- Made a Test portal for college which was made using ASP.NET framework.
- This was my final year project and along with my three team mates we were given the responsibility of making an online Test portal for college official use.
- In this project my major role was to develop server side of the portal but not limited to that I was also involved in the designing and testing process too.
- C# was used as server side programming language and HTML, CSS, and Javascript were used for client side.
